CONSUMER RESOURCE

The **SUNY Old Westbury Justice for Fraud Victims Project (JFVP)** offers victims of fraud across Long Island support in their pursuit of restitution while also providing vital skill-building experience for SUNY Old Westbury students. *JFVP's goal is to assist victims of suspected financial fraud in cases where forensic investigative services are limited or too costly.*

Criteria that may be used for JFVP case selection include, but are not limited to, demonstrated financial need (i.e. inability to afford a full certified fraud examination), victim

and witness cooperation with the investigation, and whether or not the crime occurred within the statute of limitations for prosecution.
