

2021-K900

Assembly Resolution No. 900

BY: M. of A. Rules (Cusick)

MEMORIALIZING Governor Kathy Hochul to proclaim
September 4-10, 2022, as Duchenne Muscular Dystrophy
Awareness Week in the State of New York

WHEREAS, It is the custom of this Legislative Body to recognize
official weeks that are set aside to increase awareness of serious
illnesses that affect the lives of citizens of New York State; and

WHEREAS, Attendant to such concern, and in full accord with its
long-standing traditions, this Legislative Body is justly proud to
memorialize Governor Kathy Hochul to proclaim September 4-10, 2022, as
Duchenne Muscular Dystrophy Awareness Week in the State of New York, in
conjunction with the observance of National Duchenne Muscular Dystrophy
Awareness Week; and

WHEREAS, Duchenne muscular dystrophy is the most common fatal
genetic disorder diagnosed in childhood, affecting approximately one in
every 5,000 live male births (about 20,000 new cases each year
worldwide); since the Duchenne gene is found on the X-chromosome, it
primarily affects boys, however, it occurs across all races and
cultures; and

WHEREAS, Duchenne muscular dystrophy results in progressive loss of
strength and is caused by a mutation in the gene that encodes for
dystrophin; since dystrophin is absent, the muscle cells are easily

damaged; and

WHEREAS, The progressive muscle weakness leads to serious medical problems, particularly issues relating to the heart and lungs; young men with this debilitating disease typically live into their late twenties; and

WHEREAS, Becker muscular dystrophy, which is less severe than Duchenne muscular dystrophy, occurs when dystrophin is manufactured, but not in the normal form or amount; and

WHEREAS, Duchenne muscular dystrophy can be passed from parent to child, but approximately 35% of cases occur because of a random spontaneous mutation; in other words, it can affect anyone; and

WHEREAS, Although there are medical treatments that may help slow its progression, there is currently no cure for Duchenne muscular dystrophy; and

WHEREAS, Jar of Hope's mission is to find a cure through accelerated research, call for action in Washington D.C., demand optimal care for all young men, and educate the global community; and

WHEREAS, Scientists around the globe are conducting intense research to understand what causes muscle dysfunction in Duchenne muscular dystrophy and to apply that understanding to the development of effective treatments; and

WHEREAS, National Duchenne Muscular Dystrophy Awareness Week will highlight the importance of identifying and communicating early signs of this genetic disorder which is the key to early diagnosis; now, therefore, be it

RESOLVED, That this Legislative Body pause in its deliberations to memorialize Governor Kathy Hochul to proclaim September 4-10, 2022, as Duchenne Muscular Dystrophy Awareness Week in the State of New York; and be it further

RESOLVED, That copies of this Resolution, suitably engrossed, be transmitted to The Honorable Kathy Hochul, Governor of the State of New York; and Jar of Hope.
