Lockport, NY – “I’m pleased to hear that Catholic Health and the New York State Department of Health were able to work together to provide a full-service emergency room in Lockport to cover the gap between the closing of EHS and the opening of Lockport Memorial. The residents of Lockport and the surrounding area will now have a reliable and local emergency unit available to them in the event of a medical emergency while Lockport Memorial is completed. I’d like to thank Catholic Health and all local stakeholders I have worked with, who have listened to and conveyed the concerns of residents, for coming

together to answer the needs of our community.”
