

Rebuilding Together® New York City

National Rebuilding Day: Canarsie, Brooklyn

WHY: SAFE AND HEALTHY HOUSING

Three years after Hurricane Sandy devastated the U.S. east coast, the storm continues to affect the lives of thousands of residents who face unfinished repairs, recurrent mold, and unprecedented financial burdens. In New York alone, more than 300,000 homes were damaged or destroyed. Rebuilding Together NYC seeks to help low-income homeowners restore their homes to safe and healthy conditions.

WHO, WHAT AND WHERE

For many storm-impacted residents of coastal Brooklyn, work remains to be done in their homes and throughout their communities. As part of Rebuilding Together, Inc.'s National Rebuilding Day, Rebuilding Together NYC will work with volunteers and community members to bring needed repair assistance to homeowners and community centers in Canarsie.

WHEN AND HOW

Join us and hundreds of volunteers on Saturday, April 30, 2016 from 9:00 am - 4:00 pm for this large scale rebuilding project. See how Rebuilding Together NYC supports storm-impacted communities in their recovery from Hurricane Sandy over three years after the storm.

WHAT TO EXPECT

Breakfast, lunch, Rebuilding Together NYC t-shirt and transportation to and from the Brooklyn project sites.

April 30, 2016

JOIN US TO HELP REBUILD & RESTORE

- ▶ **6 HOMES**
- ▶ **2 COMMUNITY CENTERS**
- ▶ **75 SOLAR POWERED LIGHTS**
