April 10, 2011

Legislatively Speaking

As you all know, one of my biggest priorities is economic development and the creation of private sector jobs that will keep you and your children in our great State for years to come.

Earlier this week, I was proud to support the announcement of Ken Adams as the president and CEO of the Empire State Development. Since 2006, Adams served as the president and CEO of the Business Council of New York State.

Adams has a long history of working together with small business, and I have no doubt his experience and expertise will lead to job creation and job retention in small businesses throughout our state in this challenging economic climate. I look forward to working with him in the future on ways to grow our economy and keeping our hard-working families here in New York State.

Local Boy Scout Troop Raises Funds for Japan

Last weekend, I had the honor to help out local Boy Scout Troop and Pack 169 raise funds for the relief efforts in Japan. Boy Scouts collected monetary donations, along with cans and bottles with all proceeds going to the recovery efforts in Japan. The scouts were joined the ROTC Jr. Drill Team in this effort.
