- Appointments are necessary. Space is limited.
- Men with a close male relative (father, brother) who had prostate cancer are at an increased risk for being diagnosed with this disease.
- African-Americans have the highest death rate for prostate cancer of any racial or ethnic group in the U.S., 2.4 times higher than in white men.
- Men over the age of 50 are at greater risk for prostate cancer.
- When caught early, the relative 5 year survival rate of prostate cancer is nearly 100%.

---

This free screening is only for men 40 years old or older who have previously never been diagnosed with prostate cancer. The screening includes a PSA blood test and digital rectal exam.

Call Senator Hannon's office at (516) 739-1700 to schedule an appointment.
