Screenings will be conducted by the Nassau Health Care Corporation. Their guidelines for the program are as follows:

- The program is open to all Nassau County women ages 40 and over.
- Women covered by insurance, Medicaid or Medicare will have their carrier billed and must bring their information card to the screening. Nassau Health Care Corporation policy now requires patients to be responsible for any co-pays charged by their carrier.
- Women without health insurance will not incur any out-of-pocket costs.
