

Town of Brookhaven Highway Department *Teen Driver Safety Program*

The period between Memorial Day and Labor Day is referred to as the '100 Deadliest Days of Summer' when the average number of deadly teen driver crashes climbs 15%. According to the CDC, teen drivers between the ages of 16-19 are three times more likely than drivers 20 and older to be involved in a deadly crash. Young drivers can experience the consequences of driving distracted or impaired during this program, which takes teenagers age 15 and older through a variety of interactive exercises designed to replicate the impairment created by drinking or texting. Certified instructors discuss the importance of developing safe habits on the roadways. Teens then use electric cars to complete obstacle courses designed to simulate driving while texting and impaired.

Thursday, May 16
6:00 - 8:30 pm

Safety Town
