

# Brookhaven Highway Department FREE Child Safety Seat Check

Love comes in many shapes and sizes.

Car crashes are a leading cause of death for children, according to the latest NHTSA data. A child is involved in a crash while riding in a passenger vehicle, on average, every 25 seconds. When installed correctly, car seats can reduce the risk of fatal injury in a crash by 71% for infants and by 54% for toddlers. Let Brookhaven Highway Department Certified Technicians and the Suffolk County Sheriff's Office inspect your car seat and provide you with essential information about child passenger safety.
