COVID-19 Testing Sites

I created this list of COVID-19 Testing Sites in response to questions about where individuals can get tested in our area. This list reflects the most current information available. However, testing sites are subject to change, so please call ahead.

If you go to a test site run by New York State, there is never any charge for your test.

If you go to a test site operated by local governments, private companies including pharmacies and medical practices or not-for-profit organizations, you are advised to check with the testing site and your insurer in advance of being tested to confirm you will not be responsible for any fees associated with your test.

All test sites listed below are found within their respective county. Please consider using resources listed in other, nearby counties as well.

New York State offers a Coronavirus Test Site Finder online at
https://coronavirus.health.ny.gov/find-test-site-near-you
