Dear Student:

Hello! I am your New York State Senator. It is my job to help make State government work for you, your family, and all of our friends and neighbors. I work for you and everyone else in our community. Through my job in the State Senate, I am trying to make New York a better place in which to grow up, live, work, and raise a family. One of the things that is very important to me is that all young people—like you—are provided with the chance to get a good education. Knowledge is the key to success, and it's fun to learn new things. That's why I've prepared this brochure to help you learn about New York State's government and history. I hope you enjoy it!

If I can ever be of any assistance to you and your family, I hope you will call or write to me. I look forward to serving you!

Sincerely,

Roxanne J. Persaud

**Senator Roxanne J. Persaud
19th Senate District**

HISTORY OF NEW YORK

Five days after the Declaration of Independence, the people of New York met in convention in Kingston to vote their support and form their own state government. Although their state was the scene of nearly a third of the battles fought in the American Revolution, and their major port and city was occupied, New Yorkers still managed to supply large quantities of food, clothing, lead and iron to General Washington, as well as to serve valiantly in the Continental Army. New Yorkers saw the christening of the American flag when the Stars and Stripes was first flown in battle at the defense of Ft. Stanwix in Rome.

The Colony of New York became a state on April 20, 1777, with the adoption of its first constitution—12 years before the Federal Constitution. After the adoption of the Federal Constitution, New York City was chosen to be the nation's first capital and was the site of the inauguration of George Washington as President on April 30, 1789.

The first seal of the State of New York was created in 1777. It took the place of the Crown Seal, which was used when New York was a colony. The state seal that is used today was commissioned in 1882. It was the fifth time the seal was changed. The seal appears on the state flag, on printed material authorized by the state and in state buildings and offices. The state seal is kept in the custody of the Secretary of State.

WHAT THE SEAL MEANS

Lady Liberty

Lady Liberty, on the left, was used on the state seal almost 100 years before the Statue of Liberty was built. She represents freedom for the people of New York. Held high on a staff in her right hand is a peasant cap, representing democratic rule by the people. Her left foot is stepping on a crown, representing the rejection of royalty.

Eagle

The American eagle is a symbol of strength, independence and freedom. The eagle is also one of our national symbols.

Globe

The globe points to the Atlantic Ocean and North America, showing New York's place in the world.

Lady Justice

Lady Justice, on the right, is blindfolded to make sure that she does not discriminate against anyone. The scales of justice in her left hand are balanced to give equal weight to both sides of all issues. The sword in her right hand represents the swift and powerful enforcement of the law.

Sun

The sun, with a smiling face, is seen rising over the three mountain ranges.

Mountains

The three mountain ranges of New York State are shown. They are the Catskill, the Adirondack and the Allegheny mountains.

Boats

A ship and a sloop are shown about to pass each other.

River

The river represents New York's great waterways and shows how commerce began in the state.

Excelsior

The motto, meaning, "Ever Upward," is on a ribbon below the state seal.

HISTORY OF NEW YORK

DID YOU KNOW THAT...

- ☞ From 1624 up until 1664 New York was known as the colony of New Netherland, a name given to it by its original Dutch settlers.
- ☞ In 1664, New Netherland was conquered by the English, and named New York in honor of the Duke of York.
- ☞ In 1776, New York declared its independence from England and became one of the original 13 states of the Federal Union.
- ☞ In April of 1777, New York's first Constitution was adopted. The first governor of New York State, George Clinton, was inaugurated that July.
- ☞ Our first president, George Washington, was inaugurated in 1789 in New York City, which was the first capital of the new nation. (It is said that George Washington also gave New York its "Empire State" nickname during a visit in 1784.)
- ☞ In 1848, the first Women's Rights Convention was held in Seneca Falls, New York.
- ☞ In 1884, as a gesture of friendship, France presented the Statue of Liberty to the people of the United States. This beacon of freedom has stood in New York Harbor since 1886.
- ☞ In 1892, Ellis Island opened in New York Harbor, and served until 1954 as our nation's primary gateway to liberty and opportunity for immigrants seeking a better life in the United States. It is said that 40 percent of our nation's population is descended from the 12 million immigrants who landed there.
- ☞ In 1917, the New York State Legislature passed an amendment to the State Constitution providing women the right to vote. Nationally, women's suffrage was not approved until 1920, when the 19th Amendment to the United States Constitution was ratified.

GOVERNMENT

A number of presidents have been closely associated with the history of New York State, including **Martin Van Buren, Millard Fillmore, Chester Arthur, Grover Cleveland, Theodore Roosevelt** and **Franklin D. Roosevelt**.

Elected officers of the state government, chosen for four-year terms, include: Governor, Lieutenant Governor, Attorney General and Comptroller. Legislative power of the state is vested in two houses: the Senate, consisting of 63 members, and the Assembly, consisting of 150 members.

SYMBOLS OF

State Fruit

Apples were introduced in the 1600s by European settlers who brought seeds to New York. Dried apples were a staple for colonists, and hard apple cider was a popular drink.

State Snack

Designating **yogurt** as the state snack was initiated by the fourth-graders at Byron-Bergen Elementary School from Bergen, New York. Making yogurt the official state snack raises public awareness of its health benefits and credits the dairy industry for being the nation's top yogurt producer.

NEW YORK STATE

State Motto

Excelsior (Ever Upward). In 1784, during a tour of the state's harbors, waterways and fertile interior, George Washington referred to New York as the "Seat of Empire." Since then, New Yorkers have worked ambitiously to live up to the state's motto and to make "The Empire State" the national leader it is today.

State Fossil

During the Silurian Age (over 400 million years ago), **Eurypterus Remipes**, an extinct relative of the modern king crab and sea scorpion, crawled along the bottom of the shallow, brackish sea that extended from Buffalo to Schenectady and south to Poughkeepsie, roughly along the route of the New York State Thruway.

State Tree

The **sugar maple** yields a sweet sap for syrup and sugar in the spring; its heavy crown of leaves turns brilliant colors in autumn. The wood makes fine furniture and burns well in woodstoves and fireplaces.

State Flower

The **rose**, wild or cultivated, in all its variety and color, was made the state flower in 1955. Ever popular, it was at the top of a school children's poll of favorite flowers in 1891.

State Shell

The **Bay Scallop** is our state shell and comes in a variety of colors with about 17 to 20 ribs. The Bay Scallop lives in shallow waters, usually where eel grass is present, and can live up to 20 months.

State Muffin

The **apple muffin** was created for the Bear Road Elementary School children in North Syracuse, who were instrumental in making it the official state muffin.

State Bird

The once-prolific, **Eastern Bluebird** has been making a comeback from low numbers in the 1950s. Many people provide special nesting boxes along fence rows for bluebirds.

State Animal

To provide beaver pelts to European markets, fur traders settled in the early 1600s near the present capital at Albany to trade with Indians.

Adult **beavers** are three to four feet long and weigh 40 to 50 pounds.

State Gem

The wine-red **garnet**, which is an eye appealing gem as well as a prized industrial abrasive, is the state gem.

State Fish

Found in hundreds of lakes and ponds in the Adirondack Mountains and scattered in cool, clear streams throughout the state, native **brook trout**, called brookies or speckles, provide fine angling and the best of eating.

State Flag

The device of arms of the state flag was adopted in 1778, and the present flag is a modern version of a Revolutionary War flag. It is dark blue with the State Coat of Arms in the center. The Coat of Arms shows Liberty and Justice standing on either side of a shield upon which is emblazoned the sun rising behind a range of mountains. A three-masted, square-rigged ship and a Hudson River sloop signify commerce. Beneath the shield is the state motto. The original flag is at the Albany Institute of History and Art.

State Song

"I Love New York"

Words and music by Steve Karmen

*"I love New York. (repeat three times)
There isn't another like it.
No matter where you go.
And nobody can compare it.
It's win and place and show.
New York is special.
New York is diff'rent 'cause there's no
place else
on earth quite like New York and
that's why
I love New York."* (repeat three times)

State Beverage

Milk contains vital nutrients that keep us healthy, and it is an important element for helping to develop strong bones and teeth. There are also many products that we all enjoy derived from milk, including ice cream, butter, yogurt and cheese.
