March, 2016
Revised April 5, 2016
20 By 25 Middle Income Rate Reduction Fact Sheet

• This would be a broad-based tax cut that would reduce middle class tax rates by 20% for:
  o Single filers with taxable income between $20,000 and $75,000,
  o Heads of Households with taxable income between $30,000 and $100,000, and
  o Married joint filers with taxable income between $40,000 and $150,000.

• In addition the current upper middle class tax rates will be reduced by 12 1/2 percent for:
  o Single filers with taxable income between $75,000 and $200,000,
  o Heads of Households with taxable income between $100,000 and $250,000, and
  o Married joint filers with taxable income between $150,000 and $300,000.

• This rate reduction, when fully effective, will save middle-class taxpayers $4.2 billion, annually. A total of $6.6 billion over the first four years.

• Over 4.4 million taxpayers will see savings under this plan in the first year alone, growing to 6 million taxpayers when fully phased in.

• By 2025 when the tax cut is fully phased in, it will provide an average savings of $700 per taxpayer.

• By 2019, this would be the lowest middle class tax rate since 1948 (lowest in over 70 years) and one of the largest income tax reductions in state history.

• The first incremental reduction will occur for tax year 2018 continuing the current middle class income tax rate (6.45%) and reducing the rates further to 6.33 percent.

• It will phase down over 8 years until 2025 when the tax middle class tax rates will be reduced to 5.5% or 20% (from 6.85% to 5.5%).

• Without this tax reduction, taxpayers will see their taxes increase on average by $155, for a total of $700 million in 2018. This is when the reduced tax rates expire and revert back to the higher rate.

- **Study Impact - Potential temporary pause**

- **After Rest of State (excluding New York City, Nassau, Suffolk and Westchester Counties) reaches $12.50 per hour, this region is annually indexed by the Division of the Budget in consultation with the Department of Labor until the minimum wage is $15.00.**

- **New York City Small Business Carve-out**: Small businesses with 10 or fewer employees will be provided one additional year to reach the $15/hour wage.

- **Starting in year three, the Division of Budget will conduct an annual study to review the impact of minimum wage increases and review the regional economic climate throughout the State. The Division of Budget will have authority to temporarily suspend any scheduled wage increase based on such study.**

- **Farm Workforce Retention Credit**: Allows eligible farm employers to claim a refundable tax credit for each farm employee that is employed for 500 or more hours each year. The credit is equal to $250 in 2017, $300 in 2018, $500 in 2019, $400 in 2020, and $600 in 2021.

- **The authority of the Wage Board to impose a minimum wage above the statutory rate is suspended until entire State is phased in to $15.00.**

- **Tipped Wage**: The tipped wage is frozen until it is returned to the traditional 67% of the minimum wage.
Paid Family Leave Fact Sheet

- The Legislature modifies the Executive’s proposal to create a paid family leave benefit program for employees to receive paid leave to care for a sick family member, to bond with a new child, or because of any qualifying exigency arising out of the fact that a qualifying family member is on active duty or has been notified of an impending call or order to active duty in the armed forces of the United States.
- An employee who has worked for the same employer for 26 consecutive weeks will be eligible to receive paid time off to care for a family member with a serious health condition, to bond with a new child, or because of any qualifying exigency as listed above.
- The program will be phased in on the following schedule:
  - Beginning January 1, 2018 employees may take up to 8 weeks of paid family leave and may receive 50% of the employees average weekly wage, up to a maximum of 50% of the statewide average weekly wage;
  - Beginning January 1, 2019 employees may take up to 10 weeks of paid family leave and may receive 55% of the employees average weekly wage, up to a maximum of 55% of the statewide average weekly wage;
  - Beginning January 1, 2020 employees may take up to 10 weeks of paid family leave and may receive 60% of the employees average weekly wage, up to a maximum of 60% of the statewide average weekly wage; and
  - Beginning January 1, 2021 and annually thereafter employees may take up to 12 weeks of paid family leave and may receive 67% of the employees average weekly wage, up to a maximum of 67% of the statewide average weekly wage.
- The Department of Financial Services has the ability to delay the benefit increase after an analysis of the following factors:
  - The cost to employees of the benefit and the impact of the cost after the next scheduled benefit increase;
  - The number of insurance carriers writing family leave policies;
  - The overall stability of the program and its impact on employers; and
  - The impact of the benefit increase on the financial stability of the disability and family leave insurance market and individual carriers.
- Employees must provide notice to their employer 30 days in advance of their intent to take paid family leave, if the necessity to take such leave is foreseeable. If the leave is not foreseeable, the employee must provide such notice as is practicable.
- Employees are required to pay 100% of the cost of the benefit. The statute specifically states that employers shall not be required to fund any portion of the family leave benefit. The Department of Financial Services shall annually set the maximum employee contribution using sound actuarial principles.
- Any employee who willfully makes a false statement or fails to disclose a material fact for the purpose of obtaining a benefit under the family leave benefit program shall be guilty of a misdemeanor.
## Summary

The FY 2017 State Enacted Budget provides additional Department of Transportation (DOT), NYS Thruway Authority (Thruway) and Metropolitan Transportation Authority (MTA) capital commitments to provide fair and balanced transportation capital programs. The State’s new six-year Transportation capital plan commitments include $27.1 billion for DOT ($25.1 billion) and the Thruway ($2 billion) for FY 2016 - 2021 and $27.1 billion for the MTA for CY 2015 - 2020.
Department of Transportation (DOT) - $25.1 Billion

The FY 2017 Executive Budget proposed a $20.1 billion DOT Capital Program for FY 2016-FY 2020, including $1.8 billion in additional DOT capital commitments. The Legislature modifies the Executive recommendation by providing an additional $1.04 billion commitment over the last four years of the Plan, as well as a sixth year (FY 2021) commitment of almost $4 billion, for a total DOT capital plan commitment of $25.1 billion. The $1.04 billion in additional DOT commitments over the last four years of the plan, include:

- $860 million for roads and bridges over four years, for a total of $13 billion over the five-year plan;
- $100 million for non-MTA Upstate and Downstate transit systems over four years, for a total of $397 million over the five-year plan;
- $50 million for rail freight capital projects, for a total of $352 million over the five-year plan;
- $30 million for aviation capital grants, for a total of $282 million over the five-year plan.

The FY 2017 Enacted Budget also includes Article VII language committing the State to a minimum of $25.1 billion in obligations for DOT capital projects over the next five years.

Thruway Authority - $2 Billion

The FY 2017 Enacted Budget includes $700 million for the Thruway Stabilization Program, including funding for the new Tappan Zee Bridge and the Thruway core capital program (the breakdown of these funds has not been determined). Approximately $1.3 billion was included in the FY 2016 Enacted Budget ($750 million for the Tappan Zee Bridge and $550 million for the Thruway core capital program), for a total commitment of approximately $2 billion for the Thruway Stabilization Program.

Metropolitan Transportation Authority (MTA) - $27.1 Billion

The FY 2017 Enacted Budget includes new appropriation language in support of additional State commitment of $7.3 billion to the 2015-2019 MTA Capital Program for a total State commitment of $8.3 billion. The MTA will use $500 million in anticipated federal assistance to increase the funding allocated for the next phase of the Second Avenue Subway to about $1 billion, increasing the proposed $26.1 billion 2015-2019 Capital Program to $26.6 billion. The budget agreement also provides that $450 million will be provided for the Second Avenue Subway project in the sixth year (calendar year 2020), which will be incorporated into the MTA’s next five-year Capital Plan. This additional MTA support increases the six year commitment for the MTA Capital Program from $26.6 billion to $27.1 billion.

*Article VII Proposal (S.6409-C) Parts A-F, JJ*
- The Legislature modifies the Executive’s proposal on STAR reforms as follows:
  - New homeowners will be eligible for a school tax relief (STAR) personal income tax credit, rather than the property tax exemption under traditional STAR or Enhanced STAR. The credit will be equal to the exemption granted under traditional STAR or Enhanced STAR.
    - All of the same requirements from STAR will apply to the new credit;
    - It will be an advanced tax credit mailed out between September 15th and 31st each year to avoid cash flow issues for those claiming;
    - Individuals’ school tax bill will have a specific line indicating how much the credit will be for.
  - Allow seniors to file late for Enhanced STAR and Senior Citizens exemption where “good cause” is demonstrated;
  - Allows the Department of Tax and Finance to remit direct payments to individuals that were incorrectly denied STAR benefits;
  - Converts the NYC personal income tax credit into a NYS personal income tax credit;
  - Makes minor changes to the recoupment of incorrectly given STAR benefits by switching the look back period from three years of assessment rolls to three school years.
  - Denies the Executive’s proposal to make the Income Verification Program mandatory for Enhanced STAR
- The Legislature denies the Executive’s proposal to cap STAR at 2015-16 growth levels and rejected making participation in the Income Verification Procedure (IVP) mandatory for Enhanced Star and the Senior Citizens Exemption.

- **PART LL – Establishes the Health Republic Insurance of New York Fund**
  - The Legislature advances legislation to:
    - Establish the “Health Republic Insurance of New York Fund” in the joint custody of the Office of the State Comptroller and the Department of Financial Services;
    - Provide a three-year time period for funds to be identified and appropriated;
    - Prohibit any disbursements from the fund until completion of a liquidation proceeding, and
    - Require monies be paid pursuant to appropriation and the terms established under future chapter of law.

**Article VII Proposals (S.6407-C)**
- **PART A – The Legislature denies the Executive’s proposal to eliminate the State takeover of local Medicaid growth for New York City.**
- **PART B – The Legislature modifies the Executive’s proposal to implement Medicaid Redesign Team recommendations as follows:**
  - The Legislature denies the Executive’s proposals that would:
    - Restrict Managed Long Term Care (MLTC) Plan eligibility to enrollees who require nursing home level of care on a prospective basis;
    - Require Adult Day Health Centers (ADHC) transportation to be managed by the State’s transportation manager;
    - Prohibit spousal impoverishment;
    - Reduce the threshold of spousal budgeting for community spouse resources to the federal minimum;
    - Authorize the Department of Health (DOH) to establish ceiling prices for blockbuster drugs;
    - Reduce reimbursement rates for certain specialty drugs;
    - Authorize DOH to require prior authorization of drugs meeting the Clinical Drug Review Program (CDRP) criteria prior to receiving a recommendation from the Drug Utilization Review (DUR) Board; and
    - Eliminate the prescriber’s right to final determination, except for antipsychotic and antidepressant drugs, when the justification for use is not clinically supported.
The Legislature modifies the following Executive’s proposals to:

- Collect additional rebates on high cost drugs by establishing a methodology to authorize DOH to collect a rebate for a drug that increases in price by more than 300 percent in the previous 12 months;
- Require managed care organizations to implement prior authorization of opioid analgesic refills exceeding four prescriptions in 30 days by exempting patients in hospice, or those with cancer, sickle cell or any other disease designated by DOH;
- Establish tiered penalties for the submission of late or inaccurate encounter data for managed care organizations by disallowing penalties for late or incorrect encounter data due to department system failures; and
- Limit Medicaid reimbursement for individuals dually enrolled in Medicare Part C to no more than the total amount reimbursable by Medicaid by requiring Medicaid to pay for 85 percent of recipients co-payments.

The Legislature advances legislation to:

- Strengthen reporting requirements and increase transparency related to changes to expenditures under the Medicaid Global Cap;
- Require the individuals in the Traumatic Brain Injury and the Nursing Home Transition and Diversion waiver programs to receive the same services in Medicaid managed care as they are currently receiving in fee for service, and delays the transition to managed care for one year;
- Require DOH to ensure actuarially sound rates of payments to providers;
- Authorize DOH to apply for a federal waiver to provide Medicaid services to certain Medicaid eligible inmates 30 days prior to their release from jail or prison;
- Authorize the capital reimbursement for a specific residential health care facility that is currently in receivership to be calculated at the purchase price of the facility;
- Authorize DOH to make rate adjustments to reimbursement for ventilator services for certain facilities;
- Establish a nursing home pilot for skilled nursing facilities to reduce hospital admissions;
- Create a new competitive civil service title for Medicaid Redesign Team analysts;
- Extend certain contracts within the Office of Health Insurance Programs and require the re-procurement of the contracts by an established date; and
- Extend Ambulatory Patient Group (APG) rates for behavioral health providers by one year to 2018.

PART C – Excess Medical Malpractice

The Legislature denies the Executive’s proposal to authorize the Department of Financial Services (DFS) to rank each physician specialty and territory (geographical region) combinations from highest to lowest based on malpractice risk for the purpose of distributing premiums for policy coverage from the Excess Pool.
PART D – The Legislature modifies the Executive’s proposal to permanently extend various provisions of the Public Health, Social Services and Mental Hygiene Laws by:

- Extending the DOH’s authority to make Disproportionate Share/Intergovernmental Transfer (DSH/IGT) payments to certain public hospitals outside of New York City until March 31, 2019;
- Extending the authorization of Special Needs Plans that serve individuals with mental illnesses or Human Immunodeficiency Virus until March 31, 2020;
- Extending the Patient Center Medical Home program until April 1, 2019; and
- Extending authorization of the appointment of a temporary operator to an adult care facility, hospital, or diagnostic and treatment center until March 27, 2019.

The Legislature advances legislation to:

- Require DOH to notify the legislature prior to the appointment of a temporary operator;
- Require the New York State Environmental Facilities and Cancer mapping project and statewide cancer maps on the Department’s website be updated at least every five years, and extend the project until March 31, 2022; and
- Extend the authority of the Office of Temporary and Disability Assistance (OTDA) to hire contract staff related to hearing appeals under the Fully Integrated Dual Advantage (FIDA) program.

PART E – Early Intervention (EI)

The Legislature denies the Executive’s proposals that would:

- Change the definitions of "evaluation" or "evaluator" within the Early Intervention (EI) program;
- Add new definitions "multidisciplinary" and "screening;"
- Require a mandatory referral to the local EI program by the primary referral source documenting the basis for the diagnosed disability or suspected disability;
- Require screenings to determine eligibility in EI for children without a diagnosed physical or mental condition that has a high probability of resulting in developmental delay;
- Require EI providers to submit all claims within 90 days and to enroll in a health clearinghouse;
- Include EI providers under the State’s prompt pay law; and
- Prohibit the denial of EI claims based on the location of the rendered services, whether the child’s condition is amenable to significant improvement in a short time period, the participation of the provider in the plan’s network, or if the services are not covered but would be considered an Essential Health Benefit.

PART F – Capital

The Legislature denies the Executive’s proposal to eliminate the Oneida Health Care Facility Transformation program.
The Legislature modifies the Executive’s proposal to establish a statewide Health Care Facility Transformation program to provide $200 million in capital funding to health care providers, by allocating $30 million for community based providers and giving preference to projects that did not receive awards from prior year resources.

The Legislature advances legislation to authorize DOH to convert the source of funding from bonded capital to cash for certain capital projects, and to authorize DOH to sub-allocate up to ten percent of available capital funding to the Health Facility Restructuring Pool within the Dormitory of the State of New York (DASNY).

- PART G – Limited Services Clinics
  - The Legislature denies the Executive’s proposal to establish limited services clinics in retail settings.

- PART R – Public Health
  - The Legislature advances legislation to:
    - Establish an e-prescribing exemption process for prescribers that issue 25 or less prescriptions annually;
    - Streamline the physician loan repayment and the physician practice support program by merging the two programs and setting annual award amounts at $40,000;
    - Authorize reimbursement for eligible projects within the EQUAL program that are initiated prior to the application process as long as they have previously been approved by the resident council
    - Require advance notification to local health departments of administrative limits or changes made by the State; and
    - Authorize an administrative or limited review for ventilator bed transfers between residential care facilities with common ownership

Metropolitan Transportation Authority

Aid to Localities (S.6403-D)
- The Legislature concurs with the Executive’s recommendation of $2.4 billion.

Capital Projects (S.6404-D)
- The Legislature advances a $2.9 billion appropriation for the MTA as an option to pay the additional State commitment of $7.3 billion to the 2015-2019 MTA Capital Plan once the MTA has exhausted all existing funds available.

Article VII Proposals (S.6406-C)
- PART KK – The Legislature amends the Administrative Code of the city of New York by requiring the New York City Police Department to submit to the City Council, the Governor, and the Legislature an annual report detailing the total number of criminal complaints and arrests, categorized by class of crime, for violent felony offenses that occur on subway lines and bus routes operated by the New York City Transit Authority
and the Staten Island Rapid Transit Operating Authority. The report will specify which bus routes have the greatest number of criminal complaints and arrests.

- **PART NN** – The Legislature modifies the Executive’s proposal to commit the State and the City to fund $10.8 billion of the MTA’s 2015-2019 Capital Program by adding $1.0 billion in additional funding for the DOT Capital Plan in the first four years along with committing the State to a minimum of $25.1 billion in obligations for DOT capital projects over the next five years.

- **PART OO** – The Legislature modifies the Executive’s proposal for MTA procurement reforms which will deliver savings for the MTA Capital Plan. MTA procurement practices are updated as follows:
  - Eliminates the competitive bidding requirement for contracts under $400,000 with small businesses, service disabled veteran owned businesses, minority or women-owned businesses, or for the purchase of recycled or remanufactured goods or technologies. This represents an increase of $200,000 and expands the program to service disabled veteran owned businesses which are currently not included.
  - Modifies Board approval requirements for service contracts along with raising the threshold when Board approval is required from $20,000 to $100,000 for personal services contracts (professional services) and from $15,000 to $100,000 for other service contracts (non-professional); the proposal also removes the requirement of Board approval for contracts that involve services to be rendered over one year if awarded to the lowest cost bidder.
  - Eliminates the requirement for a second Board approval of contracts for the procurement of complex construction, purchase contracts, and technology contracts. Currently, when the MTA uses a competitive negotiation solicitation process (RFP) as opposed to a sealed bid process, the Board must approve the use of the RFP and subsequently, the award to the selected contractor. The proposal would eliminate the second Board approval only in cases where the contract is awarded to the bidder with the low cost and the total award is under $100 million.
  - Provides for the use of reverse auctions for the purchase of goods, materials, and commodities through electronic bidding whereby the sellers compete to provide the lowest price. Reverse auctions are similar to eBay except that the sellers attempt to outbid one another to win the right to sell the MTA a given commodity or supply.
  - Restores the MTA’s ability to dispose of personal property with a value of $500,000 or less by public auction. The MTA had this ability until recent amendments to the Public Authorities law removed it. The statute now mandates disposal of public authority property by public advertising for sealed bids. The proposed changes would not impact real property and would primarily impact the sale of surplus equipment and shop equipment beyond its useable life.

- **PART PP** – The Legislature modifies the Executive’s proposal for MTA project delivery reforms which will generate savings for the MTA Capital Plan as follows:
  - Clarifies the existing statutory language limiting municipalities’ jurisdiction over MTA facilities and activities that generate revenue for the MTA
  - Authorizes the MTA to cooperate with local governments in efforts to capture the value created by MTA transportation projects through special assessments or tax-
increment programs and to use the funding to finance the transportation capital projects.

**Workers’ Compensation Board**

*State Operations (S.6400-D)*
- The Legislature concurs with the Executive’s recommendation of $189.1 million.

*Article VII Proposals (S.6405-C)*
- **PART G –** The Executive’s proposed making many sweeping, Workers’ Compensation Board centered, changes to the Workers’ Compensation system. The Senate rejected most of these reforms, and modified Part G to only include one section that dealt with health benefits for injured World Trade Center clean-up volunteers. This provision would allow those volunteers who fall outside of federal coverage through the World Trade Center Health Organization to continue to have claims paid. For those volunteers, benefits will be paid out of the Uninsured Employers’ Fund for medical treatment and other medical expenses.
- In addition to the World Trade Center volunteer claims, the Senate modified Part G to enable a portion of the Section 151 of the Workers’ Compensation Law assessments, held by the Board, to be transferred from the Workers’ Compensation Board to the State Insurance Fund to meet the workers’ compensation obligations for state employee for the 2016 year. Additionally, at the discretion of the Director of the Division of Budget, funds from those assessments held by the Workers’ Compensation Board will be used for technology and infrastructure improvements, funding of the World Trade Center Volunteers claims, and transferred to the Superintendent of Financial Services for the administration of Paid Family Leave. The total amount transferred from the 151 assessments held by the Board will be $240 million.
- **PART H – Paid Family Leave**
  - The Legislature modifies the Executive’s proposal to create a paid family leave benefit program for employees to receive paid leave to care for a sick family...
member, to bond with a new child, or because of any qualifying exigency arising out of the fact that a qualifying family member is on active duty or has been notified of an impending call or order to active duty in the armed forces of the United States.

- An employee who has worked for the same employer for 26 consecutive weeks will be eligible to receive paid time off to care for a family member with a serious health condition, to bond with a new child, or because of any qualifying exigency as listed above.
- The program will be phased in on the following schedule:
  - Beginning January 1, 2018 employees may take up to 8 weeks of paid family leave and may receive 50 percent of the employees average weekly wage, up to a maximum of 50 percent of the statewide average weekly wage;
  - Beginning January 1, 2019 employees may take up to 10 weeks of paid family leave and may receive 55 percent of the employees average weekly wage, up to a maximum of 55 percent of the statewide average weekly wage;
  - Beginning January 1, 2020 employees may take up to 10 weeks of paid family leave and may receive 60 percent of the employees average weekly wage, up to a maximum of 60 percent of the statewide average weekly wage; and
  - Beginning January 1, 2021 and annually thereafter employees may take up to 12 weeks of paid family leave and may receive 67 percent of the employees average weekly wage, up to a maximum of 67 percent of the statewide average weekly wage.

- The Department of Financial Services has the ability to delay the benefit increase after an analysis of the following factors:
  - The cost to employees of the benefit and the impact of the cost after the next scheduled benefit increase;
  - The number of insurance carriers writing family leave policies;
  - The overall stability of the program and its impact on employers; and
  - The impact of the benefit increase on the financial stability of the disability and family leave insurance market and individual carriers.

- Employees must provide notice to their employer 30 days in advance of their intent to take paid family leave, if the necessity to take such leave is foreseeable. If the leave is not foreseeable, the employee must provide such notice as is practicable.

- Employees are required to pay 100 percent of the cost of the benefit. The statute specifically states that employers shall not be required to fund any portion of the family leave benefit. The Department of Financial Services shall annually set the maximum employee contribution using sound actuarial principles.

- Any employee who willfully makes a false statement or fails to disclose a material fact for the purpose of obtaining a benefit under the family leave benefit program shall be guilty of a misdemeanor.
