2016-17 \$9.75M Budget Request **Higher Education Opportunity Programs**

Expand Access to Higher Education for Underrepresented and Disadvantaged Students

Liberty Partnerships Program (LPP) Science and Technology Entry Program (STEP) Higher Education Opportunity Program (HEOP) Collegiate Science and Technology Entry Program (CSTEP) \$4.0 M \$2.5 M \$750,000 \$2.5 M

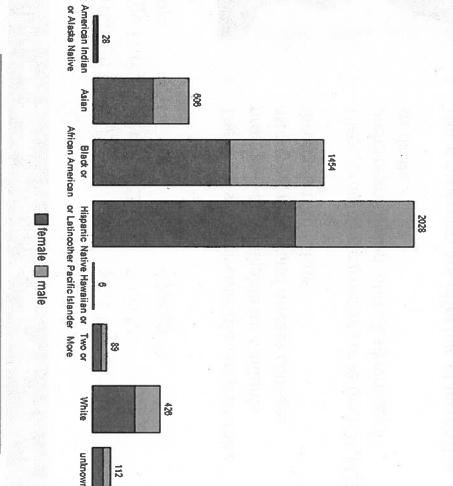

- The state's higher education opportunity programs are available for students attending public and private colleges throughout the state.
- These programs currently serve over 30,000 underrepresented and disadvantaged students.
- These programs are effective at increasing graduation rates and should be expanded.

Arthur O. Eve Higher Education Opportunity Program (HEOP, Increase Access to Higher Education –

- HEOP provides financial assistance, pre-freshman summer programs, remedial coursework, tutoring and counseling to students attending independent colleges. Students in this program do not meet traditional academic criteria when admitted to college, however, they typically earn degrees at rates that equal or exceed general admission students. HEOP currently serve over 4,600 students through 53 programs.
- Based upon the increase in college costs just since 1985, in order to keep pace with the leve of HEOP funds in 1985, the current HEOP appropriation should be \$58.6 million or approximately double of the current amount.
- HEOP currently provides \$5,600 per student. In the state provided the same proportion of support per student as in 1985, the HEOP per student award would be \$12,000.
- SED requests an <u>additional \$2.5 million</u>, to increase support to \$6,500 per student for current programs.

2014-15 HEOP Race and Ethnicity Distribution

Science and Technology Entry Program (STEP) Increase Access to Higher Education –

- STEP provides academic enrichment in science and mathematics with the purpose of increasing the number of historically underrepresented and economically disadvantaged middle and high school students prepared to enter college, and improving their participation rate in mathematics, science, technology, health-related fields, and the licensed professions. STEP serves over 7,900 students through 54 programs.
- SED requests an <u>additional \$2.5 million</u> in STEP funds to provide these academic enrichment opportunities to an additional 5 programs serving 2,500 more NYS secondary school students. These programs had received passing scores on the most recent Request for Proposals (RFP) but, despite the Legislature's successful increase, additional dollars are still needed in order to meet the demand.

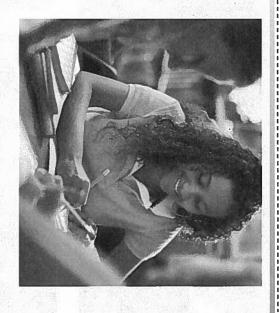

Collegiate Science and Technology Entry Program (CSTEP) Increase Access to Higher Education –

- serves over 6,300 students through 44 programs. disadvantaged undergraduate and graduate students who technology, and health-related careers. CSTEP currently licensure and to careers in mathematics, science complete programs of study that lead to professional number of historically underrepresented and economically experience in STEM content areas in order to increase the CSTEP provides academic enrichment and research
- provide these academic enrichment opportunities to an additional 17 programs serving 1,900 more NYS college students. These programs had received passing scores on the most recent Request for Proposals (RFP) but, despite the Legislature's successful increase, additional dollars are still needed in order to meet the demand.

Liberty Partnerships Program (LPP) ncrease Access to Higher Education —

- intervention and other supportive services to over 11,500 students in 40 programs across New York and high school students. LPPs provide tutoring, counseling, college and career exploration, crisis organizations in order to offer comprehensive pre-collegiate/dropout prevention programs to middle LPPs are partnerships between institutions of higher education, schools and community based
- student outreach from partner middle and high schools. SED requests \$750,000 (or a 2.5% increase) to existing programs in order to support enhanced
- attendance and classroom outcomes (grades, attendance, Regents exams). With a 94% grade promotion rate across all locations, there are positive relationships between LPP,
- LPP has demonstrated value in positively impacting youth at risk of dropping out of school.
- LPP currently partners with 511 NYS middle and high schools. The program's enrollment has grown from over 10,800 students in 2013-14 to over 11,500 in 2014-15.
- Over 460,000 hours of service were provided by Liberty Partnership Programs statewide
- 92% of LPP seniors graduated in 2014-15. Of these graduates, 81% went on to college and 5% went on to full time employment

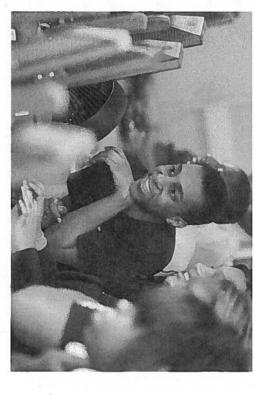

Expanding Pathways for Boys and Young Men of Color

Address Persistent Opportunity Gaps Faced by Boys and Young Men of Color

Consistent with the report of the Workgroup to Improve Outcomes for Boys and Young Men of Color, the Regents recommendations include:

- such as successful Clinically Rich Teacher Preparation Pilot Programs supplemental financial assistance to participants and support the incorporation of innovative best practices in teacher preparation programs programs, target efforts to recruit and retain teachers of color, provide \$8 million to support new programs and the expansion of existing
- **\$7 million** to incentivize and support school districts to accept the My Brother's Keeper Challenge and implement a coherent cradle-to-college strategy aimed at improving the life outcomes for boys and young men of color.
- **\$6.5 million** for additional rounds of the successful NYS P-TECH Program, specifically for expanding participation rates of boys and young men of color.
- cultural and linguistic responsiveness to the needs of boys and young men development of exemplary school models and practices that demonstrate \$5.5 million to establish a new grant program to fund the expansion and

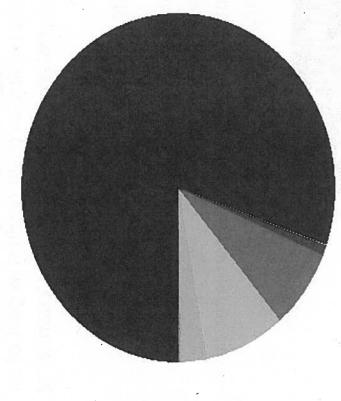

Increase Access to Higher Education Teacher Opportunity Corps (TOC)

- TOC enhances the preparation of teachers in addressing the needs of students at risk for truancy, academic failure, or dropping out of school, as well as increases the participation rate of teachers of color.
- TOC projects report 95 percent teacher retention in high needs districts after 5 years.
- Despite its proven and continued success in bringing teachers of color into the classroom, the program sustained significant funding cuts over the last several years and is currently funded at \$450,000.
- The Department is requesting an additional \$8 million to support new programs and the expansion of existing programs, target efforts to recruit and retain teachers of color, provide supplemental financial assistance to participants and support the incorporation of innovative best practices in teacher preparation programs such as successful Clinically Rich Teacher Preparation Pilot Programs.

- American Indian or Alaskan Native 0.2%
- Asian 2.6%
- Black or African American 8.4%
- Hispanic or Latino 7.4%
- More than one race 0.98%
- Native Hawaiian or other Pacific Islander 0.08%
- White 80.3%

Demographics of Current Teachers in New York State - 2015

Early College High Schools (ECHS) Increase Access to Higher Education –

Support for Early College High School Students

- no cost to the student or the student's family. organized rigorous 4-year course of study toward a postsecondary degree or credential at and earn up to 60 transferable college credits (and a minimum of 24 credits) as part of an of higher education that allow students to simultaneously obtain their high school diploma Early College High Schools (ECHS) are partnerships between high schools and institutions
- There are currently 24 ECHS programs to which the Department administers funding
- The Department supports establishing these programs in statute and is requesting funding stream to support and scale up current programs, as well as money for new programs, based upon key program components and performance \$7 million (or a \$3.5 million increase) for the purpose of providing a sustainable

Without funding in the upcoming budget, this successful grant program will end in August 2016.

Early College High Schools (ECHS) Increase Access to Higher Education –

- Rigorous research studies demonstrate that, ECHS students are significantly more likely to:
- Graduate high school on time; and
- Enroll in college and complete college on time or early.
- In the 2014-15 school year:
- 88.5% of 1,055 ECHS students graduated high school on time;
- 81% graduated with college credit, earning an average of 19 college credits; and
- 87% of the 2015 graduates planned to enroll in college.

Between 2010 and 2015, over 2,400 ECHS students graduated with over 45,650 college credits.

NYS P-TECH Schools Increase Access to Higher Education –

Support NYS P-TECH Schools

- NYS Pathways in Technology (NYS P-TECH) schools are partnerships between high schools, institutions of higher education, and businesses that create individual pathways for students to simultaneously obtain their high school diploma, earn a cost-free associate's degree, obtain workplace learning/experience as well as be first in line for a job with the program's Science, Technology, Engineering and Math (STEM) related industry partner.
- The implementation model of NYS PTECH programs provide school districts with the flexibility in identifying a partnership that works best for their students and their unique regional needs.
- The Department supports establishing these programs in statute and is requesting \$18 million (or a \$7 million increase) for the purpose of providing a sustainable funding stream to support and scale up current programs, as well as money for new programs, based upon key program components and performance.

At the HFM BOCES P-TECH school, the grade 11 ELA passing rate was 92%, including 80% for students with disabilities — in a student population where 75% of students are eligible for free and reduced price lunch.

NYS P-TECH Schools Increase Access to Higher Education –

- students students and have begun their second year with both freshmen and sophomore completed their first implementation year All 16 of the NYS P-TECH Cohort 1 projects (2014-15) with approximately 800
- 51 Degree/Career Pathways being pursued
- **Demographics of Year 1 Students:**
- 57% free and reduced meals eligible
- 56% students of color
- 64% male; 46% female
- 7% have IEPs; 5% ELL
- Attendance high 93-97%
- Disciplinary actions minimal

NYS DREAMers Act Increase Access to Higher Education

Enact the Education Equity for DREAMers Act

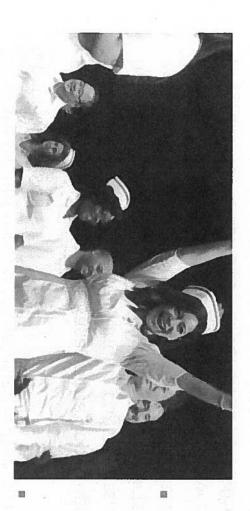

- students receive education through the state's P-12 public school system In New York, thousands of undocumented
- Give our undocumented students the opportunity to access higher education by making state financial aid available to them.
- Our economic growth depends on a vibrant, well-educated workforce
- Too many New Yorkers are denied the opportunity to get the education they need to fully participate in our economy

2016-17 \$10M Budget Request Bridge to College and Careers Pilot Program

Enable Out of School Youth and Adults to Prepare for Postsecondary Study and Careers

- Bridge programs enable out of school youth and adults to obtain critical basic skills, a high school equivalency diploma, and industry-recognized credentials.
- The Department requests funding to create bridge program partnerships between adult education programs and college or training providers in each of the seven Regional Adult Education Network regions of the state.
- These programs would include:
- Career exploration and career assessment;
- Relationships with employers and colleges; and
- Apprenticeships and internships.

5% setaside on all new programs **Build Technical Assistance and Support Capacity at SED**

Allow for proper oversight, support and technical assistance to districts

technical assistance The state should enact a 5% setaside within all new programs for administrative oversight and

- following years of agency funding constraints, the Department implementation support and technical assistance. has lost significant capacity to provide districts with Following the end of the Race to the Top program, and
- support and expertise of the Department. Since 2011, state budgets have included new education various programs, they rely more and more on the technical support. As districts are faced with implementation of these programs for which SED has received no additional state
- to be allowed a 5% setaside from grant awards to allow for It is common in federal programs for the administering agency proper oversight of the program.

In the 2016-17 proposed budget, the state general fund contribution to the operations of SED account for only 9.5% of the agency's budget, compared to 20% for DOH and 58% for OCFS.

Licensed Professionals Serve and Protect the Public

Access to Competent Professional Services

- Licensing is inextricably linked to education.
- The professions are at the core of the state's economy.
- Licensees must be qualified and competent to provide health, design, or business services - professional practice affects all New Yorkers.

Public Protection Through Professional Oversight and Discipline

- Hundreds of thousands of practice interpretations and clarifications
- Investigations and prosecutions across the state.
- Implementation of Illegal Practice Enforcement.
