Testimony for the 2024 NEW YORK STATE EXECUTIVE BUDGET for HEALTH AND MENTAL HYGIENE

My name is Samuel E. Carlisle and I work as Clinical Supervisor at Bronx Care Hospital I am an I Licensed Clinical Supervisor with 12 years experience. I oversee staff from United Healthcare Workers East Union 1199.

I am grateful to the Governor and legislature for the increased attention to the mental health needs of New Yorkers and the shortage of therapists to care for them. Our treatment team is interdisciplinary and includes social workers, MDs, NPs, psychologists, and NYS licensed mental health practitioners including LCATs (Licensed Creative Arts Therapists).

We currently employ 3 Licensed Creative Arts Therapists who work on the front lines of our mental health crisis.

I am submitting this testimony on behalf of myself and our organization due to urgent concern that the proposed Health and Mental Hygiene Bill Part Q be amended to include LCATs who are currently providing essential mental health care to many of our most vulnerable New Yorkers. There is a great need and we have heard that there are not enough providers working with Medicaid consumers. LCATs have experience with this population and can immediately help close the gap in care. Excluding nearly 2000 licensed providers undermines the state's ability to solve the current crisis. We at Bronx Care Outpatient Psychiatry deeply value the front line psychotherapy services our LCATs provide to our patients, many of whom struggle with PTSD, major depression, personality disorders, and severe and persistent mental illness.

LCATs have specialized skills and training in providing psychotherapy to those who are not effectively served by talk therapy methods. This includes people from different cultures, non-English speakers, BIPOC, and LGBTQI+ communities. Creative arts therapists are often the first responders after events of unspeakable traumas like mass violence and natural disasters, in working with young children exposed to violence and abuse, and with youth and adults, including veterans who have PTSD.

Please include these highly qualified, highly effective existing mental health professionals in this very important bill!

Sincerely,

A handwritten signature in black ink, appearing to be "S. Carlisle", written over a white rectangular area.
