

I am writing to provide testimony on the absentee ballots I received for both of my deceased parents. My parents passed away 12 years ago so given that length of time I find it odd that I received these as I had never received them in the past. I received regular voting ballots for my parents to vote. Not only did I receive one set of ballots a month or two later I received another set. Please accept this as my sworn testimony and let me know if I can provide anything else.

Sincerely,

Concetta T. Musso
