

How Can We Make Everyday Earth Day?

Reduce, Reuse, and Recycle!

Did you know that 2025 will be the 55th anniversary of Earth Day?

Everyday, we can throw recyclable items in the Recycle Bin. For example, if you have a can of soda, put it in the Recycle Bin!

You can also use a reusable water bottle and avoid using a one time plastic bottle. You can pick up any trash on the floor and pick it up.

Earth Day is a yearly event on April 22nd to show support for environmental protection. Earth Day was first celebrated on April 22nd, 1970. The official theme for 2024 Earth Day is “***Planet vs. Plastics***”.
