

Our Earth
By Jack Barth

We can work together,
And make the world better,

Picking up litter off the streets,
Composting everything we don't eat,

Don't be wasteful,
Always be smart,
Only put the things you need in your cart,

Consider your travel,
Use a bike instead of a car,
If you pedal fast enough,
You can go near or far,

It's best to start young,
When your ideas are still new,
Who knows?,
Some day those ideas may come true,

From Perth to Fort Worth,
We need to save our Earth.
