

We Love Earth

By: Anna, Parker, and Elexis

We love earth, and we want to save Earth. It is our home, and some people are destroying it. Us humans only have one planet. Let's keep it as long as we can!

I am so glad some people agree, and Help save our only inhabitable planet!
We should love our planet for our whole lives.

But, it makes me sad that some people do not agree, and do this.
I am proud of our planet, but I think some people could do a bit better.

Imagine going to the Beach, and seeing this.

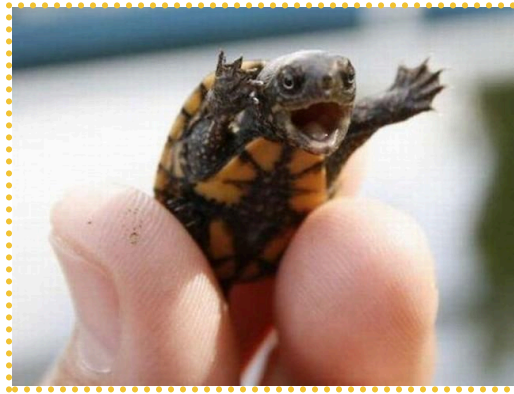

I would definitely be upset. And this:

Now this is just upsetting. Please stop doing this:

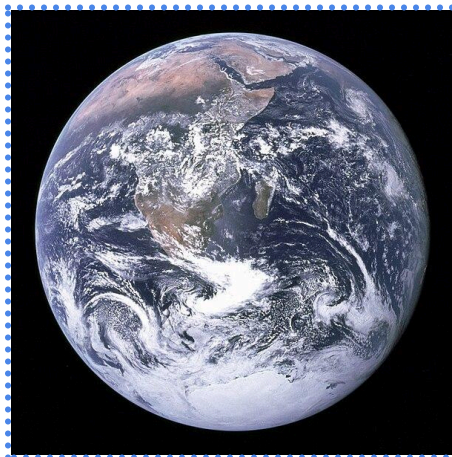

I would be happy to see this!

SO CUTE!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

We want animals to be THIS happy!

We just want the earth to stay clean, healthy and beautiful. This is where we come to an end.

Thank you for listening.
