

# The Earth Needs a favor

By Kate Giansante

The Earth needs a favor  
And we will be its savior  
So if we want to keep the sky,  
We must be careful of what we buy

The balloons that fly up above  
Are just like a big ol' shove  
So if we want to rescue the cockatoos  
Find a way to compost cow poo!

Reduce, Reuse, Recycle  
You can just ride your bicycle  
So if we want to salvage the birch  
You need to do a bunch of research

Reusable shopping bags always volunteer  
They will help us in our fear  
So if we don't want to have the Earth bruised  
Long lasting light bulbs love being used  
Because the Earth needs a favor  
And everyone needs to save her
