

The Earth is our garden, a treasure we keep.

From soaring mountains to the deep blue sea.

With rivers that sparkle, and forest so green.

Let's plant a tree, or maybe three.

With strong roots that grow so deep.

Let's cherish the beauty that's all around.

From the sky's to the fertile grounds.

Everyday is Earth day, let's make it clear!

To love and protect the planet we hold so dear.
