

I live in New Rochelle and vote at the high school.

For the last 20 years this has been an absolute pleasure.

I am proud of the work that the board of elections does and the volunteers.

I have never had a problem with voting.

In the primary this year, the Republican and Democratic poll watchers had to verify something in my record. They did it professionally and without any hint of conflict or mis trust.

I have full faith and confidence that my vote is counted and there is no fraud taking place.

I hope none of my neighbors or other residents of New Rochelle feel discouraged from voting or intimidated.

I found it very helpful to be able to vote in a way that was convenient for me.

Thank you for looking into this and giving me the chance to submit this testimony.

Please ensure that there is no change to the way we are voting, the voting procedures, the vote counting, the personnel involved and any policies or procedures.

Thank you.
