Operation Safe Child was created in July of 2005 to raise awareness about child safety.

When a child is reported missing, time can be the biggest factor in finding the child. Possessing up-to-date photographs with detailed information about the child can greatly assist law enforcement when responding to a disappearance.

Information gathered is digitally recorded and stored in a database at the Division of Criminal Justice Services (DCJS) in Albany to be used when issuing a NYS AMBER Alert.
