"The worst phone call a mother could ever receive is hearing that her son was hit by two hit-and-run drivers. On the early morning of March 12, 2023, Nicholas (age 25) was found at a crosswalk after being abandoned following the hit-and-run. Eventually, other drivers came to his aid and helped Nick get to the hospital, for which his mother is grateful. He was in grave condition and received several units of blood to help keep him alive, with the hope of possibly saving his life. Unfortunately, Nick's injuries were too severe, and he passed away a few hours later.

Nick was a huge light in this world. Extremely loving and generous. He would do anything for anyone. To honor his beautiful life, Nick's siblings, parents, family, and friends ask you to please donate and encourage others to do so. Donating blood can save lives or provide a little extra time with your loved one."
