

EARTH DAY

Heba Elidrissi

Have you ever helped the environment? Well, I have, and here are some ways you can help. You can stop pollution, also save the Earth, don't use plastic.

First, let's talk about saving the Earth. So we can start by planting trees. Then we can try and save the bees. Last, but not least, we can clean the seas. That's what we can do to save the Earth.

The Second thing you can do is when you see garbage pick it up! Also don't litter because it's bad for the environment. One more thing, don't smoke because it's bad for you and the environment Those are some things you can do to stop pollution.

Now let's talk about plastic. Plastic can hurt wildlife and sometimes kill them. If it goes in the sea, turtles can choke on the plastic and die. Also, it can make the Earth smell bad. That's how plastic it bad for the Earth.

Those are some things you can do to help the Earth in so many ways. Now you know more ways. One more thing is make sure you recycle. Thank you for reading this essay, I hope you learned something from it
