Brighton Volunteer Fire Company #5

31 Jamaica Road

Tonawanda, New York 14150

NALOXONE or **NARCAN** reverses the effects of opioids. It can stop a fatal overdose and give time for medical personnel to arrive.

WHY TAKE THE TRAINING? *It can save lives.*

- This training includes how to use the aerosol version of Narcan to reverse an opioid overdose.
- There is NO COST for the training.
- Upon completion of the training, participants will be able to recognize the signs and symptoms of an opioid overdose, administer Narcan properly, and take necessary follow-up steps.

SPACE FOR THE TRAINING IS LIMITED, SO RESERVE YOUR SPOT TODAY! Contact Senator Chris Jacobs' office at (716) 854-8705 or jacobs@nysenate.gov
