

## **John C**

My name is John and I have been recycling cans and bottles ever since last year. I am writing today because I support a better Bottle Bill. Everyone has their own reasons for recycling. Some people pay their rent and bills with recycling, other people use it for extra money to help out with other things. I use the money I get from recycling to save up to get myself back home and live a better life. It would be great if the deposit was raised to 10 cents or even 15 cents. 5 cents is nice but 10 cents would be even nicer. Everybody would be recycling. I really think it is the right choice to support this better Bottle Bill.
