What is this event about?

The MTA is in the middle of its 5-year, \$51.5 billion Capital Program.

The MTA is offering preferred bid status to companies located within New York State.

Join the list of New York-based companies already working with the MTA Procurement Team.

With an in-state bid preference and over \$50 billion planning on being spent, there are an increasing number of partnership opportunities, either as a lead bidder or as a subcontractor.
