

NEW YORK CITY DEPARTMENT OF HEALTH AND MENTAL HYGIENE

Thomas Farley, MD, MPH
Commissioner

Friday, June 25, 2010

Mosquito Control Notice:

Health Department Will Treat Selected Parts of Staten Island, the Bronx & Queens on June 28, 29 & 30, 2010

To control mosquitoes, the Health Department will apply larvicide by helicopter to marsh and other non-residential areas of Staten Island, the Bronx and Queens on **Monday, June 28; Tuesday, June 29; and Wednesday, June 30, 2010 between the hours of 6:00 A.M. and 7:00 P.M.** weather permitting. In case of bad weather, application will be delayed until **the next day** during the same hours. While three days are allotted for this activity, the application may be completed in less time.

The areas to be treated appear below. These are marshy, natural areas, which are common breeding grounds for mosquitoes. Due to their size and difficulty to reach by ground vehicles, these areas will be treated with larvicide from a low-flying helicopter.

Location(s) of Application

Borough	Neighborhood	Marsh/Wetland Areas To Be Treated	Boundaries	Zip Code
Staten Island	Arlington, Old Place, Howland Hook	Goethals North	Marsh areas bounded by South Avenue to the east; former North Shore Railroad to the north; Arthur Kill Channel to the west; and Staten Island Expressway to the south	10303

The Bronx	Pelham Bay Park North	Pelham Bay	Marsh areas bounded by Amtrak Railroad to the east; New England Thruway to the north; and the Hutchinson River to the west and south	10464 10475

VectoBac™ CG and/or VectoLex™ CG – both containing naturally occurring bacteria – will be used for this application. These larvicides will also be used throughout the mosquito season to treat mosquito-breeding sites. Both products are approved by the U.S. Environmental Protection Agency and the New York State Department of Environmental Conservation.

Reducing Exposure to Mosquitoes

- Use an approved insect repellent containing DEET, picaridin, oil of lemon eucalyptus (not for children under three), or products that contain the active ingredient IR3535.
- Make sure windows have screens, and repair or replace screens that have tears or holes.
- Eliminate any standing water from your property, and dispose of containers that can collect water. Standing water is a violation of the New York City Health Code.
- Make sure roof gutters are clean and draining properly.

- Clean and chlorinate swimming pools, outdoor saunas and hot tubs. Keep them empty or covered if not in use; drain water that collects in pool covers.
- Report standing water by calling **311** or visiting nyc.gov/health/wny.
