Article VII Proposals (S.9005-C)

- Part B – The Adopted Budget modifies the Executive proposal to extend the suspension of the subsidy to the Emergency Services Revolving Loan Fund for two years, rather than the four-year extension of the suspension initially proposed by the Executive.
- Part C – The Adopted Budget modifies the Executive proposal to prohibit the sale of convertible pistols and 3D printing technology used to make ghost guns. Under the enacted language, convertible pistols may continue to be lawfully sold in New York until May 31, 2027. After that date, no new convertible pistols may be sold in the state. Individuals who currently and lawfully possess these firearms may still possess, transfer, or sell them back to licensed dealers. The Budget also requires that all 3D printers sold in New York include technology that blocks the printing of firearms or firearm parts. A violation of this requirement would result in criminal penalties and civil fines.
- Part D – The Adopted Budget modifies the Executive proposal to criminalize drone use and establish rules and regulations for law enforcement related to drone interception. It clarifies exactly which types of drones and drone activities are prohibited, including drones used to commit crimes, conduct unauthorized surveillance, or fly over restricted areas such as prisons, military facilities, and schools, and specifies which drone uses are exempt, such as lawful recreational use, commercial, and governmental operations. It also directs the Superintendent of State Police to develop regulations on how law enforcement may safely intercept, disable, or neutralize drones that pose a threat.
- Part E – The Adopted Budget intentionally omits the Executive proposal to extend sexual offense evidence collection kit retention periods and establish a working group to consider enhancements to coordinated evidence tracking. Both houses passed identical legislation outside of the budget: S.9585 (Gounardes)/A.10543 (Paulin).
- Part F – The Adopted Budget modifies the Executive proposal to enhance the penalties for insurance fraud crimes by including the conduct of staging of a vehicle accident within the current definition of fraudulent insurance acts.

Courts must inform defendants that the order will continue if they fail to appear, and may vacate the order after a non-appearance only if it is in the interest of justice and after both parties are heard.
- Part I – The Adopted Budget intentionally omits the Executive proposal to incorporate the civil court evidence rules for business records into evidence rules for grand jury and

to allow exceptions for special witnesses in grand jury proceedings. The Senate has passed S.9758/Myrie, which includes language relating to this expansion of grand jury evidence rules for business records, outside the Budget process.

There is a five-year sunset on the program.
