Prevention, American Academy of Pediatrics**

**Dr. Abid I. Khan, Director of Psychiatry,  
Brunswick Hospital**

New Yorkers Against Gun Violence has assembled a panel that will explain how New York's Red Flag Law will be implemented, and discuss other gun safety solutions that will save lives.

We will go through the steps that can be taken to petition the court to prevent individuals with dangerous histories from accessing guns. We will also provide information about ERPO laws implemented in states around the country, and several other new gun safety laws enacted recently in New York.
