

HELP SAVE THE LIFE OF A LOVED ONE!

LEARN:

- **The signs of an opiate overdose;**
- **How to reverse an opiate overdose;**
- **About new treatment approaches.**

Every day, at least one Long Islander dies from an opiate overdose, which is an underreported number as these are only the ones caused by Heroin or prescription painkillers such as Percocet or Oxycodone.

About 7 out of 10, die at home.

Overdoses can happen to anyone. We will give you for FREE, the overdose reversal agent, Naloxone - and we'll show you how and when to use it. We'll also tell you

about Nassau's newest and effective treatment approaches – including injectable, extended-release Naltrexone; and integrated care.

DON'T MISS A CHANCE TO SAVE A LIFE.
