

Save the Planet. Recycle

Reuse

- Cans can be used to make pencil holders
- Water bottles and old shoes can be used as flower pots.
- Anyone can use a can and canyile to make a lantern.
- You can make bird feeders from a milk carton.
- You can use Kool aid and plastic to make a nurse.
- Another thing water bottles can make are watering cans.

Reduce

- If you have clothes that don't fit or are old you can make a notebok cover

- Recycling can help landfills become smaller. It can take centuries to decompose things.

- The land from landfills can take away land from animals that need it.

- Materials are being decreasing

- Recycling saves energy

- Recycling keeps the planet cleaner.
