

We've got the whole world in our hands

We can pick up trash.

We can plant trees and flowers.

We can recycle.

We can reduce and reuse.

We can turn off water when it isn't being used.

We can help the earth everywhere, not just Earth Day.

We can take care of every thing.

We can turn off lights when we leave the room.

We can walk or ride bikes instead of taking cars.

We can stop littering.
