

My dad let's me help him **recycle** the soda cans. Then they don't lay on the ground or go in the landfill. We use the money to get ice cream when we are done. It is fun and we are helping Earth!

My mom and I **reuse** cardboard boxes and old newspapers to make craft projects. I have also used water bottles to make maracas and cans to make drums. **Recycling** can be fun!

Hi! I am Oscar the Grouch! You should not litter because it would make Earth not clean! People should put garbage in my can! It would make me more happy, and the Earth too!
