

Name Bowie

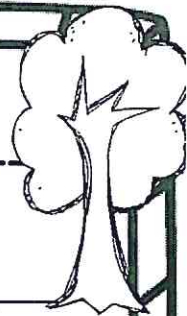

COPTES1990
truck ^{per miles}
Electric _{hour}

I could help the Earth
by using an electric
car. Electric cars help
to not pollute the
air. Less air pollution
keeps the planet healthy.
I also think plugging
in a car is really cool.
If everyone drove electric
cars it would help the
planet and save gas

Name Bowie

Gas affects the Earth
by poisoning the air and
water.
