

Earth Day Poem

Earth is special to all human beings
It is written in a lot of readings

There are wonders in outer space
But none are like this awesome place

People gather to clean all around
Not a single person with a frown

Run in circles picking up trash
There should not be a single ash

Keep the water very clean
Because this year it will often be seen

Use the time you have to play
And clean the planet on this earth day

Keep the earth adorn
Then you will receive the reward

Happy Earth Day!
