

Good Morning!

Attached please find 3 pieces of Artwork made by our students over the past 3 years. They are 4 foot x 4 foot and now decorate our hallway and cafeteria. The students K-2 collected the bottle caps, painted the designs and then glued the bottle caps. Our High School Work Experience Program students came to our school and drilled each cap in place. Everyone involved truly made “trash” into “treasure”. We have more bottle caps that are yet to be used and are looking forward to producing another piece of art! The last piece was hung this school year.
