

# Earth Day Poem By: Shreya Pattanaik

The Earth is an extremely beautiful sight  
The sun pours in with light  
So many places and things to see  
Much more entertaining than a TV  
It's a wonderful area we all share  
It is good to go outside, it gives you fresh air  
But something that the Earth needs us for  
Is to stop pollution, let's take a tour  
A forest, a park, a river, a beach  
I am just here to teach  
That from all we have seen  
We need the Earth to stay clean  
It is not as hard as it sounds  
No need to go to different towns  
Just when you go somewhere and see trash  
You should throw it away and recycle in a dash  
If you're riding your bicycle  
Remember the 3 R's reduce, reuse, recycle  
And from me to you, I would like to say  
Happy Earth Day!
