

How Does Recycling Save Energy?

Kaila

Woods

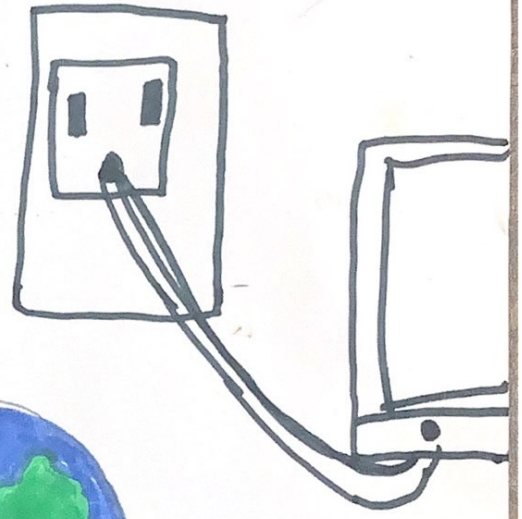

Facts

Did you know that 250,000,000 phones have been thrown away. And if all the cords were connected they would wrap around the world 3 times

PLEASE

RECYCLE

Fun Facts

Recycling saves energy by reusing materials. You do not need to put energy into making new products.

Facts

In the year 2014 the US used 412 kwh of energy
