

# Earth Day Poem

By [Paige Frohnhoefer](#)

Trash is more than you think. People might mumble so they can't recycle. A monster won't calm down to clean up the ground. You do that. So go do that and save the world. With trash you can make crafts or you can make rafts. Go outside and save the world. Remember to recycle, people don't Mumble so you don't get in big trouble. So remember those things So if you don't recycle it's not my fault.
