

Earth Day 2021

By Rylie M.

I think that this truck can help the environment. This is a garbage truck I invented that picks up garbage from the side of the road and other places. So, this is not a normal garbage truck because once it picks up the garbage it makes things such as bow ties,

clothing, bowls, hats, socks, fishing polls, and lastly metal water bottles.

This invention helps keep the environment clean and make the environment more safe for people.

3 facts about the environment and the earth!

- The oldest trees are 4,600 years old
- The earth atmosphere extends to a distance of 10,000km
- Recycling one aluminum can save enough energy to run a TV for three hours
