Hi. My name is Britania. I am going to talk about Earth day.  
We have to care and respect for our home Earth today.  
We have to go go go, and go without delay!  
When you do good I commend you and say:  
Well done, well done I am very proud of you.

There are a lot to do to care and respect earth, here are some clues  
You should respect and look after nature, and you will never be blue,  
We'll work all day, rest in the night until morning dew.  
We'll all work and work until everything shines.

Everyone is sharing nobody will say "that's mine!"  
We are working and cleaning, everyone is here, but not in a line.  
There are a lot of us, as if everyone was in a food court and was going to dine.  
We are finally done, so everyone shouts "yay!"
