

EARTH DAY

*The earth is green
The birds eye is keen
Our planet needs to be green*

*But our human specie leans
Need to come to our senses
But instead we dispenses our own needs*

*Need the earth to live
Need the earth to survive
Need the earth to be happy*

*So lets start one step at a time
Let's start to prepare our earth's future
By picking up one garbage at a time*
