

HELP OUR EARTH

ABBYGAIL FEYGIN

4-401

INTRODUCTION

- Hello Earthologists, class 4-401 is trying to save our “Mother Earth”, so come along with us to help clean and save it by April 22, the birth of our Earth.

SAVE OUR EARTH

- There are many ways we can save our Earth. Some of the examples are recycling, carpool and using electric cars instead of gas. These are some of the ways to help our Earth turn into a better and cleaner place to live. Following these simple methods will help our planet survive.

POEM

- Everyday is Earth day!
- What would Earth be like without her living creatures
- Without her thriving oceans
- Without her clean air
- Without her rich land
- Can you lend a hand?
- Everyday is Earth Day
- Reduce, reuse, recycle and teach
- Be part of the solution
- Everything is within your reach
- Everyday is Earth day

ART

CONCLUSION

- In conclusion, please apply all these rules so that we can see results soon. We should be able to enjoy our Earth for many many more year to come if we do something to help it and if we do it soon.
