Earth Day Every Day

Let's make Earth Day everyday! Here are some ways. You can save water, save electricity, Recycle.

One way to celebrate Earth Day is to save water. For example, when you're brushing your teeth make sure you turn off. Another way to save water is to use a little bit of water so you can't use too much for no reason. Lastly you could save water when you drink water don't throw away the rest of the water but drink it all or repurpose it to water plants to not waste water.

Another reason to celebrate Earth Day every day is to save electricity. One way to save electricity is to turn off the lights whenever you leave a room. Another way to save electricity is to turn off the tv when you're done using it. Lastly you can save electricity by turning off your phone or computer to save electricity and to use later.

Lastly, to celebrate Earth Day every day is to recycle. One way to recycle is to pick up trash and put it in the right place. Another to recycle is to pick up trash or plastic from the ocean and put it in the recycling bin. Lastly, to recycle you could put plastic water bottles and cans in the recycling bin.

In conclusion, Earth Day should be celebrated everyday. People should save water to help the earth have plants and animals, save electricity to have less money to spend on what they watch, lastly people should recycle so sea creatures can be safe underwater with no plastic.
