Earth Day every Day

Every year we celebrate Earth Day but I think people should treat every day as Earth Day. Some ways to make Earth Day every day is to. Stop littering, put trash in the right place and don't put stuff in the sewer because it goes to the ocean .

One way to celebrate Earth Day is. To turn off lights when you don't need them. And pick up garbage and recycle the trash to keep the Earth clean and don't litter, don't throw garbage on the floor, it's not healthy for the Earth.

Another way to celebrate Earth day every day is . Do not put trash inside the sewers because it goes to the ocean and then animals in the sea can get hurt or stuck in the trash that people put in the sewer. Lastly, people should help clean the Earth instead of throwing trash all around the place. Let's try to keep Earth healthy so then there will not be trash everywhere any more.

In conclusion, Earth day every day should be every day so we need to put trash in the right place so then the Earth can be clean and healthy so we need to help to keep Earth clean
