

Earth Day 2023!

**Every choice you make,
Sets off a difference.
A Branch of Life,
That only you can control.**

**While one's path may be their own,
People's decisions impact one another and the environment.
Where the collective's path,
Can make a difference for all to see.**

**If a singular person were to ride their bike
Or recycle
Or take a shorter shower
Then nothing would get done.**

**But the collective power of the people can cause this change,
For it is the choices that we make as a society
To Reduce, Reuse, Recycle.**

**I myself have two paths.
I think of myself as environmentally friendly,
However my actions show the exact opposite.
So maybe this is the time**

**Choose Blue bins over black bins.
Choose two wheels instead of four wheels.
Choose to protect our earth.**

**Reduce, Reuse,
Recycle!**
