### Earth Day Every Day

Let's make Earth day everyday! Here are some ways that you can make that happen. You can recycle, use less electricity, and reuse. Try to do it And you can help.

One way to represent earth day is to reuse. You can reuse paper when you finish one side you can use the other side so you can continue and not waste. People can also use an empty bottle as a vase for flowers. Lastly, people can use a newspaper page as normal paper to color, draw, glue, and cut.

Another way to represent earth day is to recycle. people can see this symbol  they can recycle the object. Another way they can recycle is to find trash in the street and pick it up and sort it with paper, compost, cardboard, glass, and more. They can also clean the ocean because most waste ends up in the ocean and animals can get sick and could also pollute the ocean.

The last way to represent earth day is to use less electricity. One way is to use less electronics. Another way is to turn off light or turn off heaters. Last is to go out to nature and explore.

In conclusion, Earth Day should be everyday in These ways! Here are some ways can make that happen. You can Recycle, use less electricity, and reuse.
