Earth Day Project Poem (Limerick)

Recycle, Reduce, and Reuse

Recycle, reduce, and reuse

Which one will you choose?

If you want to recycle,

Then, don't throw out your old bicycle

Instead, you can **RECYCLE** it

Then, bit by bit,

It will turn new

It will turn into something different you hadn't knew

Or you can **REUSE**

Then, the amount of trash will **REDUCE**

Doing this is helpful to the Earth

It will benefit the environment and make nature rebirth.
