## It's Thanks

"Thank you" or "thanks" isn't just that  
Before you say those words  
There's always a reason why  
They came out your mouth  
Or <sup>why</sup> you kept it in your heart

I'm thankful for being able to open my eyes  
And breathe  
Cause I know I'm still alive  
Thankful for the red, orange, yellow leaves  
Twirling to the ground  
In the wind

The sound of the drumming rain  
The golden sun and sunsets and sunrises  
The stars and the moon  
The gentle breeze across my face  
The white clouds in the sky
